AP Precalculus Course 2024
Grades VIII – X

Dear Parent,

Greetings!

St Kabir Public School is pleased to inform you that the Advanced Placement Pre-calculus (AP Pre-Calculus) course will be conducted in the school as per schedule given below. This course meets the requirements for The College Board, USA Pre-Calculus examination.

AP Precalculus course has the following takeaways:

- Develops content and skills common to college precalculus courses that are foundational for careers in mathematics, physics, biology, health science, social science, and data science.
- Many universities give credit for the AP Pre-Calculus course.
- The course is useful for any student, whether they wish to appear for the AP exam or not.

The details for the 2024 course are as follows.

- Course duration: From 14th November 2024 to 29th April 2025.
- Hybrid mode with two 90-minute classes in school and a 120-minute online session every week.
- The College Board have certified the course instructor to conduct this course.
- All three units of the AP course will be covered in the course; the fourth optional unit will be covered post 29th April, for those students who wish to take unit four.
- The fee for the course is Rs 25,000/-
- The minimum cohort size for the course is ten students.

Please register your wards by filling in the Google form and paying the requisite fee.
